

Rodney Reddic

Executive Director, TMAC

Rodney has over 32 years of progressive operations, engineering, consulting, and management experience in the U.S. manufacturing industrial base. Rodney received his Bachelor of Science Degree in Industrial Engineering from Texas A&M University, College Station, and he is a certified Lean Six Sigma Black Belt. Rodney has served in various management roles throughout his career including Thermo-Electric Product Manager for Igloo Products Corporation, Houston, Texas. Engineering Manager for RXI Plastics Corporation, Houston, Texas, where he was responsible for product development, production flow, and plant layout. Also, at Peerless Manufacturing, Rodney served as the Plant Manager responsible for planning, directing, and controlling all areas of plant production, as well as, overall P&L for the Denton, Texas facility.

Rodney has been employed with the Texas Manufacturing Assistance Center (TMAC), for over 21 years providing consulting services to manufacturers and businesses throughout Texas. TMAC is the Manufacturing Extension Partnership (MEP) program for the state of Texas, and part of the national network of MEP programs. Rodney held the position of TMAC Metroplex Regional Director from (9/2018 – 8/2021), where he was responsible for program management and performance in the DFW Metroplex Region. In September 2021, Rodney was promoted to TMAC Interim Executive Director for the statewide program, which includes oversight management of TMAC offices located at (Texas Tech, UTEP, UTRGV, SWRI, UHCL, TEEX, Lamar University and UTA). Rodney was most recently promoted to the TMAC Executive Director position on March 1, 2023.
