

Jeff Sick

Air Force Sustainment Center

Jeffrey R. Sick, a member of the Senior Executive Service, is the Director of Logistics, Air Force Sustainment Center, Tinker Air Force Base, Oklahoma. Mr. Sick acts as the center integrator to coordinate the broad range of center logistics capabilities for a geographically-dispersed workforce of 43,000 personnel across three air logistics complexes, two supply chain wings, and three air base wings. The Logistics Directorate prioritizes center goals, objectives and integrates the center's critical capability areas: Strategic Planning, Resource Management, Process Management and Guidance and Sustainment Performance Management, Logistics Operations and Weapons System Integration. The Logistics Directorate drives the center to standardize and integrate its planning activities, resources, policies and procedures. These capabilities work in concert to ensure the center plans and executes to be effective and efficient.

Mr. Sick joined the Air Force Sustainment Center in 2017. He has more than 31 years of experience and has served in a variety of positions to include program management, squadron command, deputy materiel group command, maintenance group command and culminating as the Logistics Directorate Vice Commander. He has held tactical, strategic and executive level leadership positions across the Department of Defense. Prior to his current assignment, Mr. Sick was the Director of Depot Modernization and Supply Chain Processes Division, Air Force Sustainment Center, Wright Patterson AFB, Ohio.
